Field of Dreams Award Application and Rules

Submit log files supporting completion of the following contact requirements. Refer to the standard NATA awards requirements which apply to ALL NATA awards. This award requires a total of 40 contacts (30 of which must be from contacts made while checked in to a NATA net, application of the NATA 75% rule). Contacts may be made on any mode/band unless specified in requirements below. Read the requirements CAREFULLY as some contacts are restricted to coming from certain NATA Nets. Please submit complete log entries to support all contacts on a separate sheet!
